STATEMENT OF REASONS FOR ALLOWANCE

Claim 1 recites a specific combination wherein three current sources, responsive to a "bandgap circuit", are connected to sum a current to a reference node having a total current that is mirrored. While many of the cited remarks disclose similar arrangement, none of them further teach the "first" through "third" resistors having the recited connections or the recited operation concerning temperature dependencies of the voltages of the "bandgap circuit" and the currents of the current sources. Claims 2-16 being dependent on claim 1 read over the prior art for similar reasons. Thus, the case is in condition for allowance.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Terry Cunningham whose telephone number is 571-272-1742. The examiner can normally be reached on Monday-Thursday from 7:30 to 6:00.
